

WASHINGTON, D.C. – Congresswoman Loretta Sanchez (CA-47) today supported the passage of House Resolution 1036, recognizing the important contributions of Korean Americans in Orange County and across the United States.

“Korean Americans are an integral part of our national fabric,” said Rep. Sanchez. “Korean Americans, like thousands of immigrants to the United States before them, have built strong families and contributed to dynamic communities. In Orange County, their businesses play a crucial role in our ongoing economic recovery and continue to put people back to work. I am proud to represent the Korean Americans in my district who live out the American Dream each and every day.”
